Note: the Certification Hearing was warned concurrently with the Glover Selectboard's regularly warned Selectboard meeting. The selectboard put their regular business on hold while the hearing was opened. There were a few questions about the certification process, and why it was happening. Alison explained that the certification process required at least one public hearing for the public to provide comment. There was a question about the solar project, but it was explained that it was for discussion at the regular selectboard meeting. There were no other comments.

The hearing closed at 6:12.

Respectfully submitted,

Alison Low
